Japanese Preparing for Decisive Assault on Port Arthur—Troops and Powerful Cannon Are Being Landed.

Paris, Sept. 18.—The correspondent of the Matin at Chefoo says it seems from an official source that the Japanese are preparing for a decisive attack on Port Arthur and troops are being landed daily at Dalny with powerful cannon.

A revival of popular agitation against the "yellow peril" has resulted here from Japan's recent remarkable successes. A discussion is started to the effect that the extent of the official circles where it was suggested today that the danger might compel the European powers to consider the necessity of effecting a coalition for self defense against the peril. The newspapers and political leaders are unanimous in declaring that the Japanese success is due entirely to their military qualities and that there is no question of yellow peril.

NEW BRIDLE PATH TO CRYSTAL PARK

Work on Trail From Bear Creek Canon to Begin This Week---Road Will Afford Picturesque View of Mountain Scenery.

The trail to Crystal park was started last week. This is the latest of the system of boulevards, driveways and trails that are being constructed by General William J. Palmer to the scenic points of this region. The new trail connects with the Bear Creek canon road at the point where it branches into North Cheyenne canon. From here it winds up the mountain, entering Crystal park from the south and east.

From a scenic point of view the new trail will afford one of the magnificent climbs of the region. A full force of men will be put to work on the road by Engineer Reed this week and the letting out of the trail will be completed in plenty of time for the travel of next summer.

The trail will be entirely separate from the old trail leading from the Manitou depot, and will afford a new and more beautiful approach to Crystal park.

The Colorado City-Bear Creek road has been completed and has been open to traffic for some time. It connects the end of Sixth street with the Bear creek road near the Short Line and is a convenient cut-off from Manitou, Colorado City and West Colorado Springs to the picturesque drive through Bear creek and Cheyenne canon.

LARGE STUDENT ENROLLMENT AT THE HENAGER COLLEGE

The enrollment at Henager's Business college very good for this season and the prospects indicate the largest attendance in the history of the school. New students are enrolling every day not only from the city, but from outside as well. Among the students enrolled this week are those from Colorado City and elsewhere in the state, one from Iowa, one from Alabama, and one from England.

This school has been in successful operation for over thirteen years and has a reputation for thorough training and integrity with stenographers and bookkeepers and other office help during this time. No school in the country has been more successful in placing its graduates in positions.

PRISONER READY TO TAKE MEDICINE

WHEN FOUND GUILTY OF TAPPING TILL FRED BLANCHARD ASKED THAT SENTENCE BE PRONOUNCED.

Fred Blanchard, who was accused of stealing $50 from the Grier hotel some time ago, entered a plea of "not guilty" when arraigned yesterday. The case immediately went to trial before a jury, which returned a verdict of guilty.

Blanchard waived the right to file a motion for a new trial and said he was ready to take the sentence of the court, which was that he be taken to the reformatory at Buena Vista within five days and there be incarcerated.

Sentence to the reformatory is always indeterminate as to time, the officials being given discretion and being allowed to parole prisoners after a certain period has elapsed. It is understood here that Blanchard will get one parole in a little over six months.

NERVOUS, DYSPEPTIC WOMEN

Made Well and Strong by Pe-ru-na.

Diseased Nerves are Directly Traceable to Poor Digestion.--Poor Digestion is Directly Traceable to Catarrh.

"I have always found Peruna to be just right for my business."--Mrs. A. E. Richter.

Mrs. A. E. Richter, 318 Hastings St., Columbus, O., writes:

"Whenever I caught cold it settled in my wife's side. I suffered always with headaches and dizziness. I had no appetite and was very nervous. I take pleasure to inform you that through your suggestions and advice I am in good health today."--Mrs. A. E. Richter.

Nervousness is a vague term which covers all of those ailments which result from a disordered condition of the nerve centers. Systemic catarrh is very frequently the cause of this condition. Every mucous membrane in the body is directly diseased by systemic catarrh. This leads to a complete demoralization of the digestive and assimilative organs, and a thoroughly exhausted nerve system ensues. Nervousness is the result. Cheerfulness, irritability, mental complications, or even mental conditions result from starved nerve centers.

The only cure is to remove the catarrhal condition of the mucous membranes.

Peruna is the remedy that will do this.

Peruna is not a secret nor a patent medicine. Peruna cures just the same for—catarrh.

Peruna cures catarrh of the internal organs and the nervousness disappears.

The more nervous one is, the more quickly Peruna will restore perfect health.

Mamie L. Rawlings, No. 412 10th St., N. W., Washington, D. C., writes:

"I took several bottles of Peruna, on the advice of our druggist, to cure me of catarrh in an aggravated form. This had taken such a hold on my system that I feared that I would never be able to rid myself of it, but I certainly have eradicated it from my system entirely, and this with the aid of Peruna.

"I consider it a very fine tonic, and shall always be pleased to recommend it to the many who suffer with this common trouble—catarrh.

"With the very best wishes and hearty thanks to you, I am, Mamie L. Rawlings."

Catarrh of the head is liable to spread to other organs. It is the direct cause of many severe stomach derangements. Catarrh of the stomach and nervousness go hand in hand.

PRETTY WAITRESS QUITS WORK AND LEAVES FOR HOME TO CLAIM HER TITLED MILLIONS

Her Life-Story Seems Set in the Lurid Light of Melodrama, But She Vouches for Its Every Word and Shows Scraps of Paper That Describe the Big Estate to Which She Has Fallen Heir.

Married while a mere child and compelled to earn a living for her husband from whom she was divorced shortly before his death in Denver two years ago, the life story of pretty Ida Michener, who has fallen heir to an English fortune and prospective title, reads like a tale drifted from fairyland or the lurid light of melodrama.

So filled with the unusual is this story of a waitress suddenly become [illegible] and skeptical listeners who have heard it from the girl's own lips gaze into her deep blue eyes with a look of astonishment and then turn away with a smile.

"It's not a fairy story," insists the little girl, who has been waiting, but coffee and sandwiches to customers at Cascade. "I know I don't look the part, and it does sound [illegible] as my Lady Margaret Michener, of Essex, England, was my great-grandmother, but she was though good. Known it was a bad day for her when she married my great-grandfather against her family's will. But she did marry him, and that's how my name happens to be Michener. I'm going back to Indiana [illegible] the family tree and [illegible] of the branches on it.

"And so the little girl stays in a fragrant nest of vine, talking to customers. Her employers have said that [illegible] with the [illegible] have confirmed the truth of [illegible] Michener, and she has letters and scraps of paper to [illegible] that clearly [illegible] to the millions. [illegible] to be divided among eight of us. I have seven brothers and sisters, and we are all working people."

Bank of England Notes.

According to Miss Michener's story, which she tells with many protests against newspaper publicity, the fortune which comes to her mother consists of lands and moneys in England. The money is in the Bank of England and has been there for many years, says Miss Michener.

"My great-grandmother, Lady Margaret of Essex, married outside of the aristocracy and caused trouble for herself and all her heirs. We all lived in England until my parents came to this country when I was a baby and settled in Indiana. The report that I was born at Carmel, [illegible] north of Indianapolis, is incorrect, as I was born in England.

Mistake of Her Life.

"I grew up in Indiana and was married there when I was very young. I was [illegible] and I didn't know what I was doing, and I soon [illegible] and I had a baby. I had to work for my own living and, with my little boy, to [illegible] to Denver. I got work [illegible] and my husband followed me. IS HERE LOOKING FOR PITCHBLENDE

NATIONAL UNIVERSITY MAN IS INVESTIGATING RADIO-ACTIVE SUBSTANCES FOUND IN CRIPPLE CREEK DISTRICT.

Dr. William J. Hartman, a member of the faculty of the University of Michigan, who comes to this section and states he is making some investigations into the presence of pitchblende or uranite and other radio-active substances in the district of Cripple Creek.

Dr. Hartman is the professor who on a trip last year discovered a number of deposits of pitchblende in the state, the finds of Teller and Park counties and will endeavor to interest capital with a view to the return to the mines. He has announced finds where the Cripple Creek ores possessed radio-active qualities from some source.

The result of Dr. Hartman's investigations will be submitted in a report to the secretary of the interior of the United States government, by which he was empowered to make investigations during his summer trip to Colorado.

EDUCATORS PLAN WORK

Principals and Supervisors Exchange Ideas.

SEVERAL INNOVATIONS

NEW METHODS WILL BE INTRODUCED IN SEVERAL DEPARTMENTS AND AN EFFORT MADE TO ENLARGE.

A meeting of the principals and supervisors of the public schools of this city was held with Superintendent John Dietrich last week and several innovations that will add efficiency to the work of the city's schools were decided upon.

Stereoscopic views will be introduced into the class room work during the coming year. A trial will be made with a few hundred views and if this proves successful, each of the upper grades of the several ward buildings will be provided with several stereoscopes and a large number of pictures to be used in illustrating the studies of the class room. These will be used more especially in the studies of history, literature and geography. A committee of principals was appointed to select the views. In the work in the high school, the new stereopticon will be used to a great extent in this work.

With Slate Blackboards.

Another innovation will be the beginning of a museum in each building in the city. These museums will include objects, pictures and reference texts, and will aid materially in systematizing the study of geography, history and nature study, and will [illegible]

Superintendent Dietrich also announced to the principals the importance of written tests, especially in the upper grades and in the high school, and it is practically decided that hereafter no student will be excused from examination on account of high standing, as has been the custom for a few years past. The superintendent emphasized the value of being able to examine knowledge on paper, a fact which is becoming recognized more and more every year in secondary schools. For this reason and [illegible] work under pressure short examinations will be given more frequently and all will be obliged to take them.

More stress will this year be placed on the careful supervision of work by the teacher in helping the slower students, especially in the higher [illegible]

PITTSBURG'S BIG TEMPLARS

Men of Distinction in Commandery No 1.

ARE HERE FOR TWO DAYS

THE LARGEST IN THE WORLD. CONTAINS SOME OF THE NOTED MEN OF MASONRY IN AMERICA—WILL SEE PIKE'S PEAK.

The big Knights Templars commandery which arrived yesterday morning at 6:30 was from Pittsburg but it was the Tancred delegation instead of Pittsburg No. 1, as the railroad advices read. The party, 150 in number, left in the afternoon for Denver, en route to their homes.

According to official dispatches received last evening, Pittsburg commandery No. 1, the largest commandery of Knights Templars in the world, will arrive in Colorado Springs over the Santa Fe shortly before 8 o'clock this morning. This commandery carries 275 sir knights and their ladies, the largest delegation of any to attend the conclave in San Francisco last week, and its special train is made up of 15 cars, two baggage cars, one commissary car, three diners and nine Pullman sleepers. The train will remain here until tomorrow evening.

In charge of the party is Past Commander Herman Junker, who for many years has had full charge of all the travels and equipment of this commandery. As a matter of fact the knights do not care to have anyone else, and it may be said that this train is among the few [illegible] August 24. The officials [illegible] mandery are Sir Edward Lewis, [illegible] man, generalissimo; Sir Charles E. Schantz, captain general; Sir George Heaps, treasurer and Eminent Sir David M. Kinzer, recorder.

Fifty-Seven Years Old.

Pittsburg Commandery No. 1, Knights Templars, was instituted in that city in June, 1847, under charter from the grand encampment of the United States. It bears the distinction of having as one of its members, Col. Thomas E. Rose, imprisoned in 1863, who executed the plan of escape from Libby prison and who was the first to gain his liberty by the tunnel route. He is still living and is an adjutant general in the United States army.

Herman Junker, who was eminent commander in 1897, is a thirty-third degree Mason, and he is always put in charge of all trips of the commandery. He is a personal friend of D. C. MacWatters, general passenger agent of the Short Line, and it was through the latter's efforts that the commandery will visit Colorado Springs. Mr. MacWatters formerly lived in Pittsburg and is acquainted with about 250 out of the 275 visitors who are due to arrive this morning.

Going to Cripple Creek.

An exclusive special carrying the Pittsburg delegation will be run to Cripple Creek tomorrow morning at 8:30 over the Short Line. Today the party will be driven through the Garden of the Gods and the canons and will also go to Pike's Peak. A majority of the party will stop at the Antlers while in Colorado Springs.

The pamphlet covering the trip from coast to coast was gotten out by Mr. Junker and is one of the neatest and most thorough of its kind seen here. It is attractively bound in colored and embossed covers and contains many colored illustrations and cleverly written descriptive articles. Five pages including illustrations are devoted to the Short Line and its many wonders.

Three special trains were run to Cripple Creek yesterday filled with visiting knights and their ladies. Reading, Pa., commandery with 125 people arrived yesterday and will remain until this evening visiting the various places of interest. Allen commandery, of Allentown, Pa., and Scranton and Williamsport, Pa., commanderies; all over a day late, arrived yesterday. They will continue on their journey eastward this afternoon.

The last of the Knights Templars scheduled to arrive are due in Colorado Springs sometime during the morning, and these are the Syracuse, N. Y., and Towanda, Pa., commanderies. A number of trains will be run to Cripple Creek today to accommodate the Pennsylvania commanderies now in the city.

TO BE INITIATED IN CAVE OF WINDS

Woodmen of the World Will Have Interesting Celebration in October---Picnic and Other Features.

The celebration to be held by the Woodmen of the World in this city and Manitou, October 11, will be the unique event of its kind in the history of fraternal organizations.

Two feet above sea level and yet underground in one of the most wonderful caverns of the world.

The initiation ceremonies are to take place in the Cave of the Winds, and the degree will be given beneath Wonderland on the great natural organ in the cave. Seats will be placed in this room to capacity to accommodate 1,000 persons and it is expected that even that number will be assembled. Hillside Camp No. 8, of Colorado Springs, alone has 250 members and the Colorado City camp swells the local membership to the 1,000 point. Other camps of the county are expected to attend almost en masse and there will be visitors present from all the towns and cities of Colorado.

Head Officers Coming.

Head Consul F. A. Falkenburg, of the Pacific jurisdiction, is expected to be present at the ceremonies and Head Clerk E. Bent and Head Physician F. P. Bessinger are also expected to attend. Sovereign Commander J. C. Tilton, the founder of the order and the head of the sovereign jurisdiction, together with Sovereign Clerk Yates, are expected also.

Special trains will be run from state points for the mining celebration and initiation. The local committee already has coverage of 150 candidates for initiation at this time and it is expected that the number will be increased to 200 before October 11.

W. J. Snider, of Colorado City, who was formerly one of the Supremes of the order in Colorado, but now elected master of ceremonies for the outside parts of the celebration. General Passenger Agents Rowe and Hartman have been making preparations and have engaged 20 horses for the use of the officers.

Tyros to Parade.

The parade will start on this side and will pass through the principal streets of Colorado Springs to the mouth of the cave. A stop will be made at North park where a public meeting will be held, at which Mayor Jim Hardy will greet the

THE WOMAN'S CLUB BEGINS NEW YEAR

President's Address a Feature of the Opening Meeting--Important Plans Announced for the Season.

The opening meeting of the Woman's club of Colorado Springs for the season of [illegible] was held on the [illegible] building yesterday afternoon. The president, [illegible] delivered a most pleasing address upon the aims and work of the club, reviewing the past year and outlining the work for the coming year. Mrs. Sanborn's address was received with much applause and at the close of the reading Mrs. Stevens moved a vote of thanks to the president for her able address. The motion was seconded by Mrs. Hoyt and carried unanimously.

The reading of the general report of the corresponding secretary, Mrs. Lucy Hall, was then given. Mrs. Hall reported the attendance at the meetings of the club during the past year and the work done by the various committees. The report was received with applause.

The report of the treasurer, Mrs. Alice Bemis, was then read. It showed a balance on hand of $[illegible]. Mrs. Bemis' report was also received with applause.

The report of the auditing committee, Mrs. Stevens and Mrs. Hoyt, was then read and accepted.

The report of the nominating committee, Mrs. Stevens, Mrs. Hoyt and Mrs. Sanborn, was then read. The committee recommended the following ticket for the ensuing year:

Rev. Crayton S. Brooks, Reform Preacher From Missouri Arrived Last Night---Expressed Interest in Conditions Here.

REV. CRAYTON S. BROOKS.

Dr. Crayton S. Brooks, who has accepted the call to the First Christian church of this city, arrived here last night and registered at the Antlers hotel. He will preach his first sermon in Colorado Springs today, occupying the pulpit for the services at 11 o'clock in the morning and 7:30 in the evening.

It was Dr. Brooks' fiery denunciation of the police of the First Christian church in Jefferson City, Mo., that aroused the campaign against boodle and graft so ably prosecuted by District Attorney Joseph Folk. It was also charges by Dr. Brooks that the first of the January grand juries and the first two petit juries that followed so hopelessly failed in the trials of the boodlers were discovered. But the exciting moral campaign resulted in failing of the grand jury to be empaneled for the state and this will have to be done at the discretion of the next term of court.

He spoke of Joseph Folk in the highest terms and said that there was no doubt of his election as governor of Missouri in the coming campaign. The platform adopted by the Democratic party in the city of Kansas in Missouri is one of the most remarkable documents ever written, in general. It sets out in radical terms the demands of the majority of people in the metropolitan and agricultural districts, and they will expect themselves at the polls. The points which it has

COLORADO COLLEGE HIGHLY HONORED

PRESIDENT SLOCUM PRESIDES OVER COLLEGE SECTION OF EDUCATIONAL CONGRESS AT ST. LOUIS.

President William F. Slocum will leave tonight over the Santa Fe for St. Louis, where he will attend the International Congress of Arts and Sciences, where he will be one of the speakers in the department of education.

While away on Thursday morning Dr. Slocum will deliver the principal address of the celebration of the fiftieth anniversary of the founding of Illinois college at Jacksonville.

His subject will be, "The American College as an Distinct Institution." Among the other speakers at the celebration will be President Hadley of Yale and President Wheeler of the University of California.

In the department of education there are included the three sections of international work, the school, the college and the university. Dr. Slocum is chairman of the committee on the college, and he will deliver on Friday morning the opening address in this section, taking as his subject, "The Place of the College in the Movement of Higher Education." Among the other speakers will include President Hadley of Yale, President Thomas of Bryn Mawr, President King of Oberlin, President Woods of Mount Holyoke and President Harris of Amherst college.

This congress will be attended by distinguished men from both Europe and America, men who have become noted for their work in the various fields of intellectual endeavor which will be discussed at the meetings this week—from Monday until Friday, and one of the most important gatherings that has ever been held in the United States.

That President Slocum has been selected to preside at this discussion is one of the best evidences that Colorado college has received for its president. To be appointed to one of the very few positions, many [illegible] are awarded [illegible] on the occasion.

PROUD PARENTS [illegible]

STRONG ALLY OF OMAHA

Sioux City Defeated the Millionaires With Ease.

TEAM IS STRENGTHENED

MARYATT AND E. LAWLER JOINED THE IOWANS, MAKING BEST BUNCH OF PASTERS THEY HAVE EVER HAD.

Special to the Gazette.

Sioux City, Sept. 17.—Presenting the strongest line-up of the season, the Cornhuskers today defeated the Millionaires with great ease in a carefully played game, the score being 5 to 1.

Maryatt and E. Lawler joined the team today, making the best bunch of batters who have ever played in a Sioux City uniform. Today's contest showed this, as the team got seven extra bases out of five hits. Cadwallader was in the best of form, Omaha completely at his mercy.

Omaha scored two runs in the [illegible] inning, on an error and triple and is determined to take as many games as possible from the two Colorado teams. The full score [illegible] to-day:

The features of today's game were Bowen's single, two-bagger and triple in three times up and the batting of Will and E. Lawler. Score:

ELKS CLAIM THE PENNANT

BY DEFEATING THE ROBBINS TEAM YESTERDAY ELKS HAVE GONE THROUGH BALL SEASON WITHOUT LOSING A GAME.

As a result of winning yesterday's ball game from the Robbins team, the Elks nine claims the amateur championship of Colorado Springs and vicinity for the year 1904.

The game, which was played at Bluestone park, resulted in a victory for the Elks by a score of 15 to 1, and in view of the fact that they have not lost a single game this season their claim to the banner will probably hold good. Chairman who has charge of the championship emblem is expected to step forward and present it to the Elkerino nine.

Nothing of a startling nature broke loose in the ball yard to-day, a pleasant afternoon although the air caused by the coolness of those who showed proficiency to believe that Autumn had about moved across the bay and that Europeans was putting on autumn clothes.

Both teams showed their lack of recent practice, but the full nine innings were played. Myers was unable to pitch and Fatty [illegible] for the Robbins team, and National league, asked me if I wanted a trifle wild, but at that he would have probably won out had not Fats been put in for the Elks in the sixth inning. He's two good men. 'Certainly,' I said, and he then told me of Maitland and Harper who were traveling on an [illegible] matched the game and they got the money's worth. Back by innings, like

PUEBLO LOST TO LOCAL TEAM

IN FAST BOWLING GAME LAST NIGHT CRESCENTS WON FROM VISITING BOWLERS BY LARGE MARGIN OF 204 PINS.

In a practice game last night the Crescents defeated the Star-Journal team on the alleys of the former by the big margin of 204 pins.

Both teams are members of the Western Bowling league and while the match was not a scheduled one and does not count in the league games, it gives a line of the relative strength of the two teams. The Crescents figure more heavily in league circles and on the form of the past few weeks they will be in danger of losing out. Pueblo evidently was not in the best of form and has a good bowling alley and by which to judge of the real strength when once the team gets going.

Collard and Reeves were the star performers for the local team, both averaging well over 200 for the three games, Reeves rolling [illegible] the match. Score:

HIGH SCHOOLS WILL MEET TO DRAW UP FOOTBALL SCHEDULE

Manager Frank Ross of the High school team yesterday received notice from Boulder that the annual meeting of the board of control of the Colorado Interscholastic Football league will be held in the East Denver High school next Saturday.

This meeting is called for the arrangement of the two divisions of the state league, the revising of the constitution and the drawing up of the season's schedule. Manager Ross will attend the meeting as the high school is in favor of the new

HOW TWO "UNKNOWNS" BROKE INTO NATIONAL LEAGUE BALL

The first professional paying engagement that "Jesse" Bartell, the great American league outfielder, and Pitcher Jack Harper of the Cincinnati Reds received was under Thayer Terrason, who is now manager the Grand Rapids inter-state league club. The way Terrason came to get these players is explained by himself:

"We were playing in Mansfield and Fulton [illegible] for the Robbins team, and National league, asked me if I wanted a trifle wild, but at that he would have probably won out had not Fats been put in for the Elks in the sixth inning. BRITISH LOST TO AMERICANS

In a polo match that was a pretty one from the [illegible] point of view, and one that was hotly contested by the playing players, the "Americans" yesterday defeated the "Britishers" by the score of 9 goals to 6.

The playing of all three was fast and furious and both sides scored five goals, but the "Britishers" were unfortunate enough to make a safety stroke, which lost them the game.

It is the intention of the polo players here to have matches at the Country club grounds every Saturday that the weather will permit of the sport. A large crowd witnessed yesterday's play and [illegible] were warmly applauded.

? The Story of the Man Who Wants to Know

A-1 There Are Others

THE average investigator of psychic phenomena can find an abundance of testimony, but very little evidence of a nature which is satisfying to anyone except the individual who relates it. The credibility of witnesses is such a large factor in cases of this kind that long personal acquaintance is necessary in order to establish the amount of weight to be attached to the narrated event of a personal experience. This is not intended in any way as a reflection upon the intelligence or veracity of those who relate the experiences. Two men of absolute honesty may witness the same event and give very different accounts of what transpires. The personality of the narrator largely affects the story which he relates. What may be of great interest and value when told in the hand loses both qualities in the printed type, simply because the personal element is lacking.

During the [illegible] communications have been sent to the Gazette and a number of individuals have called at the office to relate their experiences of a psychic character. It is the intention to publish these experiences in [illegible] form.

How to Become an Adept.

Chapter C, P. E. O., 2:30 p. m. Mrs. Jacob Sanford.

All contributions to the Sunday luncheon club department should be sent to the writer, Mrs. Adams, 631 East Boulder street, telephone 676, or the society editor, telephone 70, not later than Friday.

The executive committee of the woman's club resumed meetings last Thursday, after the summer vacation, with an excellent attendance and much interest manifested. The meeting was held at the home of the chairman, Mrs. Robert Tyler, 30 East Monument street.

The entertainment planned by the art and literature department, "The Prophets and Mediums," received favorable comment when the subject was introduced by the chairman of the department, Mrs. E. A. Sawyer. Mrs. John E. White, who has already directed the presentation of the pictures in the past, will have charge.

Mrs. W. A. Gray, chairman of the social science department, announced that a letter of acceptance had been received from Dr. R. W. Thompson, chief secretary of the Colorado Fuel company, to speak on the subject of the Colorado Fuel and Iron strike and will address the meeting early in December.

The date of Saturday, October 15, a social meeting of the club.

It was recommended that the meeting of January 9, in charge of the civil science department, be devoted to the subject of "Civil Service Reform," and that Miss Jane Addams of Hull house, Chicago, be secured, if possible, to deliver the lecture.

Ladies' Aid society of the First Methodist church gave a very successful chicken pie supper last Thursday evening at the church. The supper was in charge of Mrs. J. S. Hayes, chairman, and the other ladies of the section, and the fine sum of more than $40 was netted for the Deaconess hospital.

The Frances Willard union held their monthly business meeting Thursday, September 15, at Willard home.

TELLER COUNTY DEMOCRATS.

THOSE Democrats of Teller county who refused to vote for the re-election of Governor Peabody on account of [illegible] are [illegible]

The Democratic leaders in Cripple Creek know that the governor's plan is the honest Democratic plan for the promotion of peace and safety. They know that through the efforts of Governor Peabody and his friends there have been for many months [illegible] there are many more workers in the mines than there have been for two years. They know that payrolls are larger than they have been for two years.

And yet a few of these men for [illegible] interest [illegible] seek to [illegible] the Republican administration because [illegible] is the proper thing to do. The men who are [illegible] know that they are sacrificing their principles and their manhood in the facts when they vote as some of the employees of [illegible] and [illegible] are willing to [illegible] the [illegible] of their own good sense.

All honor to those Democrats who refuse to [illegible] with the Denver combination, and who refuse to modify themselves to promote the political aspirations of those party bosses who care nothing for the good name of the state if they can but serve their own selfish purposes.

THE BOY ORATOR IN RELIGION.

[illegible] Rev. Dr. Gunsaulus of Chicago, in a recent address, expresses the belief that the day of the "boy orator" in politics as well as in politics was passing.

A good many people have entertained the same view for a good many years or at least have expressed the hope that the day of prolific talent would come to an end.

Dr. Gunsaulus says:

"The boy orator of the ministry is what [illegible] I intend to do right now. We are living in a man whose [illegible] age. Our people and our communities are of a thoughtful mood. They demand an educated preacher to the pulpit and to the platform, and as Pentecostal manifestations [illegible] with [illegible] the mind. The day of the boy orator [illegible] has had a great opportunity for [illegible] and [illegible] the power of God. The audience of [illegible] is in the midst of a very [illegible] religious [illegible].

It is noteworthy, indeed, to what extent the [illegible] has [illegible] and exceptional in religious [illegible]. Notwithstanding the fact that the people know that there are [illegible] preachers of the type of Spurgeon and Moody and Vincent and Gunsaulus and many others whose names might be mentioned there seems to be an effort to exploit [illegible] and preachers," "reformed [illegible] players," "cowboy [illegible]," and other [illegible] who [illegible] of their own peculiar [illegible].

In many cases they are crude in their thought, clumsy [illegible] and [illegible] in their position. They [illegible] the boy and they ought to have it. They need [illegible] the [illegible] in the scriptures, learned in the [illegible], versed in [illegible] and [illegible], reflected in their sermons. Only then [illegible] the [illegible] there is the world has for the great tasks of [illegible].

IF PEABODY IS ELECTED.

[illegible] Democrats in favor of electing Governor Peabody [illegible] and business [illegible] to vote [illegible] with [illegible] of Democrats in the state. It is [illegible] that the people in overwhelming majorities [illegible] of [illegible] and [illegible] in the state. It will bring [illegible] confidence of [illegible] and capital. Business is [illegible] in Colorado [illegible] the [illegible] part, the election of a Democratic governor [illegible] and [illegible], continuance in the policy [illegible] of the Western Federation of Miners, not [illegible] and [illegible] control of the [illegible] [illegible] on this plan and bring [illegible] success of [illegible], of [illegible] and [illegible].

The [illegible] Colorado [illegible] [illegible] is [illegible] the [illegible] [illegible] by the Western Federation of Miners. The [illegible] [illegible] and [illegible] point that the [illegible] of the [illegible] [illegible] with this [illegible] and all [illegible] [illegible] which will be [illegible] by [illegible].

[illegible] of the Teller [illegible] have been [illegible] by Mr. Mayer that if they will [illegible] the campaign [illegible] will be [illegible] [illegible] more [illegible] than a [illegible]. Let the [illegible] [illegible] to take a good look at what Mr. [illegible] has to say to the Western Federation in this state [illegible].

This Kansas soil is remarkable but it doesn't produce [illegible] [illegible].

[illegible] Carnegie offered two wealthy cranks to the cash [illegible] of Massachusetts, [illegible] He called the [illegible] [illegible] and her greatness and [illegible] rejected. Now that Uncle Joe says to "Boeing" he will be receiving [illegible] [illegible].

It is reported that Mr. Gorman is to [illegible] in New York a large share [illegible] [illegible] now on to advise with the campaign managers. It would be painful if he should [illegible] the [illegible] [illegible] and advise them to quit.

Kuropatkin is getting plenty of praise for [illegible] his army [illegible] from Liao-yang in the face of great difficulties, but now about the glory for the Japs who [illegible] [illegible] [illegible].

The [illegible] Daily to General Kuropatkin from the man who [illegible] that Liao-yang indicates that if his [illegible] has no [illegible] to be thankful he is [illegible] [illegible] [illegible].

John Stanley Wallace, chief engineer of the Panama canal [illegible], is in New York [illegible] contracts for [illegible] with the [illegible]. As a former railroad man he [illegible] [illegible].

Sir Thomas Lipton says that Watson "is undoubtedly the greatest yacht designer in England." Quite right, Sir Thomas. But when we cross the Atlantic we prefer an American [illegible].

New York Democrats are thinking of naming Charles Goodnight for governor. [illegible] [illegible] those men in the make-over and he is a powerful heavy [illegible].

There are two awful dressmakers conventions in City. But both [illegible] agree upon one thing—that the customer must pay more for her gowns this fall.

GREAT CATARACT OF THE ZAMBESI

St. Louis Sept. 5.—A large part of Rhodesia, exhibits in the Palace of Transportation of the World's fair is devoted to paintings, photographs, relics, models and other mementos, illustrating the great cataract of the Zambesi in Livingstone, Rhodesia, northern. This exhibit possesses a unique interest inasmuch as it enables the visitor to become familiar, at one and the same time, with two of the greatest wonders of the world, one natural and the other artificial—the finest waterfall and the highest bridge.

The Victoria falls, or, as they are called by the natives, Mosioa-tunya, "The Column of Water Reflecting Rainbows," or more frequently, "Place of the Sounding Surges," were first discovered by Dr. Livingstone and described in 1857. Many full and interesting accounts and representations of them were given in Travels" (Livingstone) and by David and Charles Livingstone in 1865 and by Captain Lawley in 1886.

Wide and High.

They are far larger and more than double Niagara falls in width, and are nowhere less than twice as high. Niagara Falls (U. S. side) are 1,000 feet wide and 164 feet high. The Victoria falls are 1,860 feet wide and 400 feet high. The Victoria falls are 1,860 feet wide and 400 feet high. The Victoria falls are 1,860 feet wide and 400 feet high.

Many Cataracts.

The falls are divided into several distinct cataracts by projecting points of the rock, which jut out from the eastern bank. The first fall is known as Garden Falls, the second as Rainbow Falls, the third as Cataract falls, the fourth as Eastern falls, the fifth as Main falls, the sixth as Western falls, and the seventh as Boiling Pot falls. The Garden falls are the highest, being 400 feet high. The Rainbow falls are 300 feet high. The Cataract falls are 200 feet high. The Eastern falls are 150 feet high. The Main falls are 100 feet high. The Western falls are 50 feet high. The Boiling Pot falls are 25 feet high.

Electric Power.

In the Alfred H. Hickard received the idea of utilizing the Victoria falls for the development of electric power. He secured much encouragement from Cecil Rhodes. Two distinct movements were developed, which were united at Rhodes' suggestion and the Victoria Concession, syndicate which secured the concession for developing electric power at the falls for 21 years. The power will be distributed for a distance of 80 miles in all directions, and it is expected that improvements in methods now being planned will permit of the transmission of the power to a distance of 100 miles. The power will be distributed for a distance of 80 miles in all directions, and it is expected that improvements in methods now being planned will permit of the transmission of the power to a distance of 100 miles. The power will be distributed for a distance of 80 miles in all directions, and it is expected that improvements in methods now being planned will permit of the transmission of the power to a distance of 100 miles.

Immense Force.

The water leaving over the falls during the wet season (March to June) is estimated to have a water force of 50,000 horsepower, and at all times in the year it will be more than sufficient, at present, to meet the demands which are not likely for many years to come.

The great commercial railroad, that is to run the whole length of Africa from Cairo to Cape Town, and will doubtless be one of the most important highways of commerce in the world, has already been completed as far as the falls, and the Zambesi arches just below the Boiling Pot are to be crossed on its Rhodesian section. The Victoria falls bridge is 650 feet high, which is 100 feet higher than the Niagara suspension bridge, and has a main span of 500 feet, with approaches of 175 and 400 feet respectively. Its height above the surface of the water will be 420 feet at low water and 400 feet at high water.

CRUISER NEW YORK TO BE KEPT IN THE LEAD

San Francisco Sept. 5.—The armored cruiser New York, flagship of the Pacific squadron, the protected cruiser Boston, the gunboat Bennington, destroyers Paul Jones and the collier Nero sailed from this harbor today for target practice at Magdalena bay. The cruiser Marblehead remained in port to protect the interests of the government.

It is stated that the New York will make the Olympic port of call from the Atlantic squadron that Rear Admiral Goodrich will transfer his flag to her, the New York not coming her trip to the New York navy yard, where she is to be repaired.

The other vessels, with the exception of the Paul Jones, which is to be stationed at San Diego, will return to this city.

THREE GOVERNORS ENTERTAINED BY FRANCIS

St. Louis Sept. 5.—President Francis entertained a distinguished party for a time while through the Cascades in the Jefferson Memorial Park today. Those who enjoyed the excursion included Secretary of the Treasury Shaw, Governor Pennypacker of Pennsylvania, Governor Durbin of Indiana and Governor Peabody of Colorado.

MINOR LEAGUES GIVE THE POLISH

It takes more than a few days and years of experience to make the ball player worthy the National. Very few, indeed, can step from the rural ball and make good in the fastest company. Some experiences are so that they will be [illegible] Dexter, the pitching [illegible] and two million dollars will skip out the intermediate and jump from the country grass into the [illegible] of the game.

No matter what the natural quality of a player may be, [illegible] Pratt, Brockton, the other day, he needs the schooling that the minor leagues give him before he can hope to gain a place with the big fellows.

Three pitchers who came to Cincinnati as unheard experiments and were turned from the Red Sox after brief trial have gained more than ordinary [illegible] in the minors. Pitcher Dineen is still a big power in the box in Boston, while Joe Yeager, Norman Gibson and Charley Case [illegible] company. ATTRACTIVE SHOWS AT THE PLAYHOUSES

Sam S. Shubert's company presenting Harry B. Smith's "A Girl from Dixie" came to the Opera house last night.

The plot of "A Girl from Dixie" revolves around the fortune which belongs to Miss Calvert, but which, through a mistake, has been given to Kitty Calvert. Kitty is a southern girl, and when the play begins she is attending a district school at Tennessee Mt. Nick Calvert is her cousin, and although it seems that the girl has a fortune coming to her from her father, he refuses to claim it. The greater portion of the first of the play depicts the life of the girl in the mountain district of Tennessee, and which is expressive of quaintness and quarreling characteristic of the people. Kitty's good fortune is made the occasion of a celebration by Jack Burleigh, members of "everything in the mountain district." Squire Hook, of Tennessee Bill fame, and many others, and the events of the school, including Wade Mabel, Katie, Kitty's friends, Dandy Jack, Burleigh, Hook and Bill, together with the "Tennessee Belle" finale, make the first act one of the most extraordinary theatrical and artistic musical triumphs of the season.

One pride of prominence refers to the "Tenderfoot," as "Arizona" is to music. That phrase implies the atmosphere of Augustus Thomas' great play which is here in abundance. The dashing times of Texas deliver into the hands of the painter, poet and musician a wonderful subject, and Mr. Carle has been able to cope with his subject and the hour of his story.

The "tenderfoot" is Professor Ezekiel Pennypacker, A. B. D., M. S., a prissy, gullible tutor from St. Johnsbury, Vermont, whose travels in charge of a party of young ladies takes him to the Texas border where "tenderfoot" specifically are the prey of all wild Western gamblers and horse thieves. This is a synopsis of the main situation, on which the comedy of errors are built.

Texas Indeed named Monte Worthington's ranch, a southern home in Colorado and is given the affront of a kiss by a dashing cowgirl. She learns the tenderfoot is a rich Easterner and that he would marry a woman. The cowgirl, Pearl Wilkinson, takes the situation in a different light and follows her mark by a ruse. Monte is about to fall to the old game and will obtain the marriage license when Pearl appears on the scene and the action of the play is changed. Pearl is in love with Monte and is jealous of Texas Rose, in reality and that she would desert Monte's cause. THE TENDERFOOT.

"The Tenderfoot," with Richard and his merry band of musical comedians, including the famous Texas Tommy Dancers and the Nine Phenomenal Girls, will appear on the stage of the Opera house, Wednesday evening, and presentation, which is interrupted by the alarm of an Indian outbreak. The troop has to change the cowboy clothes for his regimentals, betraying himself to his bride. This makes her doubly resentful toward the rangers and particularly toward her husband. She follows him on his campaign, made up herself like a cowboy and provokes a duel. Friends intercede and replace the deadly bullets in the pistol for blanks. The colonel sees through the disguise and when they both exchange glints, he falls as though wounded and she, thinking it a fact, forgets her fake in true womanly solicitude—the conclusion is rending naturally.

THE NEW ELITE.

The past week was the fifth week of the New Lyric theater and each week since the first has been more satisfactory as to attendance as well financially, and now the management has cut loose from all the attractions and is running as an independent house, taking the best acts from the different circuits and securing bookings and features unobtainable from the east. This should spell success as improvement over the one circuit arrangement.

The past week has been a fair test of what may be expected in the future and it must have been very satisfactory and judging from the smiles that were before the countenances of all connected with the theatre.

The singing of Master Chas. Evans has been great and it is expected that he will remain another week. Mr. Evans is a very clever boy and is a favorite with the audiences.

Miss Lillian Leslie, the soubrette, is a fine one and he will continue to be a drawing card. Miss Leslie has remained many weeks he will only become more and more deeply entrenched in the hearts of the public.

The great Weaver has played a very satisfactory engagement and did a very pleasing act of female impersonation. James Neary, the jolly Irish comedian, was suffered by all for his Irish wit and splendid dancing.

Russell and Sinclair in their burlesque musical act, have been the recipients of more than usual honors in the line of encores and deserved them.

The "Comedy of Idiosyncrasies" by Warren & Howard is the best Eveliest and cleanest skit that has been given in Colorado Springs for some time.

For the present week the headliners will be "Perry, the Frog Man," as he is called. He is the highest salaried artist of his kind in the profession and is now returning from a tour around the world. Perry carries a full set of gorgeous scenery which in itself is worth the price of admission. He will be seen only this week at the Empire, then going direct to Chicago and New York for a long engagement on the Keith circuit. This is a great novelty act that will surely pack the Empire this week.

Master Charles Evans will be seen in a specialty. The Massarettis, the greatest acrobatic musical act extant, are also on the bill.

Will Reynard, the monologue artist, and new biograph pictures, the Empire will close this week.

MUST SERVE TIME IN PENITENTIARY

HARRY COTTRELL WHOSE CHECKERED CAREER WAS AGAINST HIM GETS LONG SENTENCE.

Harry Cottrell, yesterday, pleaded guilty to breaking open the safe in a barber shop at Colorado City and stealing therefrom the sum of $30. This special attention to the peculiar question court sentenced Cottrell to not less than one and not more than two years in the penitentiary.

Cottrell has just completed a term of one year in the penitentiary for the same crime and upon his release from that institution was taken to Colorado City and there committed the crime for which he was sentenced yesterday.

He was sentenced to the penitentiary for seven years by Judge Dillon, of the district court, for the crime committed in this city, but was released after serving one year by the board of pardons.

Cottrell has a long criminal record and has been in trouble in this city, both police and justice, for a number of years.

CANNON DISCUSSES PENSION LEGISLATION

Washington, Sept. 17.—Speaker Joseph G. Cannon spoke in Tabernacle this afternoon to a large audience. His speech was principally devoted to a defense of the pension legislation of the present congress and a denunciation of the pension legislation of the Democratic congress. He said the Democratic party was committed by the House of Representatives, namely the Democratic members, and have two-thirds of the Democratic membership.

MAKING BRAVE FIGHT

Charlie Lamont Clings to Life Although Little Hope Is Held Out for His Recovery.

Charlie Lamont, the boy who was shot by Eugene McClellan, accidentally last Friday night in a vacant house on Cucharras street, Colorado City, is still in a very serious condition at St. Francis hospital. Little hope is held out for his recovery.

Up to late Friday night the physicians had been confident that the boy would recover, but a change for the worse came about midnight and he has been in a critical condition ever since. The physicians state that the ball has not yet been found which they are anxious to locate before any operation is performed. Charlie Lamont, the wounded boy, is a son of Mr. and Mrs. John F. Lamont, of 120 Bolorado avenue, Colorado City. The family are members of the Catholic church and are well known in Colorado City, where they have resided for a number of years.

Eugene McClellan is the son of Mr. and Mrs. John F. McClellan, of 30 Cucharras street, Colorado City. The father is employed in the Midland shops.

GOOD OUTPUT FROM THE REGI PROPERTY

Lessees Have Opened Up an Ore Body Measuring Eight Feet That Returns Values of Two Ounces Per Ton.

Special to the Gazette.

Cripple Creek, Sept. 17.—The Regi property on Bull hill, recently leased by Wright and associates, who are operating on the Zenobia property on Bull hill, has opened up a body of ore measuring eight feet in width that assays values of two ounces to the ton. The ore was encountered a short distance from the shaft in the 500-foot level.

The shaft has been sunk to a depth of 700 feet, but the lessees will now continue it to the 1,000-foot level, and if the ore body is encountered at this depth drifts will be run to the east and west on the 1,000-foot level. The lessees are pushing the work of development as fast as possible to determine the extent of their find.

GOOD RETURNS FROM THE FLORENCE MINE

Special to the Gazette.

Cripple Creek, Sept. 17.—Whiting and associates, who quite recently secured a lease on the large dump of the Florence property, are at the present time sending out nearly two carloads of ore per day and expect to increase this considerably by the end of the month.

The lessees have installed a large plant of machinery. By the aid of a large electric motor the ore is raised on a tram car from the dump to a platform moving 30 feet high, when by gravity it is run through screens and a spray washer and into the bins and tanks. The ore gives returns of $15 to the ton.

The new plant of machinery, which was largely an experiment, is proving very satisfactory. The dump, which contains in the neighborhood of 30,000 tons of rock, will take some time to treat, but the lessees are pushing things so that 100 tons per day can be treated.

LITTLE HATTIE HAS SMALL FORTUNE IN THE MINE

Special to the Gazette.

Cripple Creek, Sept. 17.—T. H. Hamill, who is operating under lease the Oberlin property, which adjoins the Golden Cycle, has sent to the bottom of sinking a small fortune from the lease. After fully investigating from two to three feet has been opened a short distance from the shaft on the 600-foot level which guarantees a good output in the ton, while the secondary values anywhere from five to ten ounces per ton. Today four carloads of ore left the property.

The lessee expects to commence the cut of next week in driving a crosscut from the main level to tap the south vein, which is opened up 100 feet below. The lessee figures it will take all summer to run the cut and reach the vein.

This is the property the owners of which recently started litigation with the Golden Cycle people over apex rights that promises to be one of the longest drawn-out and most bitter fights ever known in the district.

NEW MACHINERY FOR THE GILPIN LEASE.

Special to the Gazette.

Cripple Creek, Sept. 17.—A piece of machinery on the Little Bear & Dexter hill is today mounted in the engine house on the Jerry Johnson property on Ironclad hill. The plant consists of a Mine [illegible] and [illegible].

The Gilpin lease on the Jerry Johnson property is [illegible] and [illegible] at the present time as it is [illegible] and [illegible]. Most of the ore is being [illegible] at the mill [illegible].

DRIFTERS ON THE GOLDEN STAR CLAIM OF THAT COMPANY HAVE OPENED A VEIN WHICH CARRIES 150 OUNCES.

Special to the Gazette.

Cripple Creek, Sept. 17.—Gray and associates who are operating under lease the Golden Star claims of the Acacia company, located on Bull hill, have opened up a mineralization of ore, the body of which is zinc, silver and lead with a little gold.

The vein, which was encountered at a depth [illegible] feet, measures between two and three feet wide and assays taken today show that the silver predominates, giving returns of 15 ounces to the ton. The lessees are pushing the work of development as fast as possible to determine the extent of their [illegible].

COLORADO SPRINGS MINING EXCHANGE

El Paso led the mining stock market yesterday in activity with Acacia a close second. The former opened weak at 94¢, but the stock was in demand at that figure and the price jumped to 97 and from there to 98¾, the highest above Friday's sale price.

Isabella sold freely but at a slightly lower figure. Up to yesterday the big price has been quite firm at 21, but from 20¾ yesterday the stock declined to 20¢ and then to 21, a loss of one cent.

The producers held the lead of the market up by selling at advanced figures for all the stocks traded in. Gold Sovereign sold at 4¢, an advance of three-eighths over the bid the day before. Rose Island sold at 4¾ as against 4½ the day before, and Sunset Colfax sold at 1¾, an advance from the figure bid the day before.

Zero was the only laggard in the list, [illegible] the day [illegible] cent.

Greater advance of the day [illegible] the quotations of Cripple Creek [illegible] at 21¢, per 1,000. The bid the day before was 20 per 1,000, and the Portland recorded on Thursday was at 21¢ per 1,000. No reason is given for the advance.

Trading was light, it being the usual Saturday semi-holiday on the exchange.
